

Your connection to healthcare databases worldwide®

[www.bridgetodata.org](http://www.bridgetodata.org)

## Following up after ICPE, Boston

- » Thank you to all who stopped by our booth at the International Conference on Pharmacoepidemiology & Therapeutic Risk Management (ICPE), recently held in Boston.
- » We hope you were able to get a glimpse into how B.R.I.D.G.E. TO DATA® can be a useful resource in your search for the right population healthcare database(s).
- » If you missed the opportunity, you can always check out our [sample set](#) and [tutorials](#), or [contact us](#) for further details.

## View and download our poster

- » Our poster "[Toward Optimizing Data Structures in Cancer Registries](#)" gives insight into the structure and content of cancer registries form around the world, and makes suggestions of how cancer epidemiology could be enhanced through improved registry design.
- » We would love to hear your thoughts on our poster - do [write](#) to let us know what you think!

View and download other posters we have presented at conferences around the world on our [Presentations page](#).
