

For Immediate Release: Arlington, VA, USA  
December 16, 2011

## Milestone Reached: **B.R.I.D.G.E. TO DATA**® now exceeds 150 profiles including several from Eastern Europe

**B.R.I.D.G.E. TO DATA**® is constantly adding high quality healthcare database profiles. Today it has surpassed a milestone with **more than 150 profiles** from **24** countries.

Recognizing the interest in accessing data from Eastern European countries, **B.R.I.D.G.E. TO DATA**® now includes several database profiles from this region including:

- » *Estonian Health Insurance Fund (EHIF) Prescription Database*
- » *Hungarian Case-Control Surveillance of Congenital Abnormalities (HCCSCA)*
- » *Hungarian Congenital Abnormality Registry (HCAR)*
- » *Serbian Pharmacovigilance Database*

**B.R.I.D.G.E. TO DATA**® is a current and trusted online subscription resource, developed and maintained by DGI, LLC. Customers include the world's leading pharmaceutical companies, consulting companies, and academic researchers.

What else is new at **B.R.I.D.G.E. TO DATA**®:

- Annually updated profiles - Important tidbits of information are constantly being discovered while doing annual updates for each profile - For example, data for the last survey conducted by **NHDS (National Hospital Discharge Survey)** in 2010 will be available mid-2012. However, going forward, **NHDS** will be replaced by **NHCS (National Hospital Care Survey)**, with the first survey conducted in 2011.
- New tutorial videos - **B.R.I.D.G.E. TO DATA**® now has 3 updated high-definition videos on:

- » *Conducting a search,*
- » *Creating a collection, and*
- » *Signing up for a subscription*

- A sample collection of database profiles - This will soon be available on the **B.R.I.D.G.E. TO DATA**® web site, so one can see what the database profiles look like. The collection can also be used as a teaching tool. If you are not a subscriber and wish to see the sample collection or utilize it in a course, please contact us.
- Updated glossary - The online glossary now includes **140** terms/abbreviations utilized worldwide.
- Our latest poster - View a copy of "*An Analysis of Registries with Birth Defect Data Using an Online Database Resource*", presented at the 27th International Conference on Pharmacoepidemiology & Therapeutic Risk Management (Chicago, 2011).
