

B.R.I.D.G.E. TO DATA® HAS BEEN ENHANCED!

Based on user feedback, [B.R.I.D.G.E. TO DATA®](http://www.bridgetodata.org), the nonprofit online compendium of population databases at www.bridgetodata.org, has undergone several enhancements. Some of these new features include the ability to:

- Explore database profiles by region (e.g., Asia, Europe)
- Search for databases in various countries simultaneously (earlier limited to all countries or one country)
- Export search results into Excel (for easier sorting and editing)
- Modify and refine search to narrow results

We also enhanced our map listing - check it out [here](#)
