We're more than a healthcare database resource!

Our team of professionals will work with you to understand your specific needs and goals and create a customized plan to optimize your database-related projects. We can:

- Conduct comprehensive database searches (using B.R.I.D.G.E., literature, our professional network, other sources) to identify data sources meeting your study's unique criteria;
- Communicate with data vendors on your behalf;
- Facilitate data access (third-party data requests);
- Develop searchable database repositories customized for your team; and
- Help incorporate B.R.I.D.G.E. as a database teaching tool.

Our search page is getting a major upgrade.

We understand that searching for the right database can be a daunting task, so we are simplifying the process for our subscribers. This upgrade will make your experience on our site more productive.

Stay tuned for updates as we improve our platform.
