

# B.R.I.D.G.E. TO DATA® Presentations at ISPE Annual Meeting - Washington D.C.

DGI will be presenting 2 posters at ISPE's 41<sup>st</sup> Annual Meeting:

- 1. *"Landscape of Public Health Data Dashboards: Comparison of Key Features for Epidemiology Research"* Aim was to describe and compare key attributes of public population-level healthcare digital data dashboards with a major epidemiology research database.
- 2. *"Comprehensive Landscape Analysis for Usable Real-World Wound Care Data"* Goal was to identify available and usable real-world-data on US chronic wound care patients, as an early step toward the Wound Care Collaborative Community's objectives.

See our publication in the WOUNDS journal

The International Society for Pharmacoepidemiology (ISPE) is having its annual meeting in Washington D.C.:

- Dates: August 22 - 26, 2025
- Location: Washington Convention Center

Stop by during poster sessions to discuss our findings and explore opportunities for collaboration.
